HOW THE STRONG CAN HELP YOU

The *Strong Interest Inventory*® instrument is a powerful tool that can help you make satisfying decisions about your career and education. Whether you are just starting out in your career, thinking about a change, or considering education options for career preparation, you can benefit from the wealth of information reflected in your *Strong* results. Understanding your *Strong* Profile can help you identify a career focus and begin your career planning and exploration process.

Keep in mind that the *Strong* measures interests, not skills or abilities, and that the results can help guide you toward rewarding careers, work activities, education programs, and leisure activities—all based on your interests. As you review your Profile, remember that managing your career is not a one-time decision but a series of decisions made over your lifetime.

HOW YOU WILL BENEFIT

The *Strong* can be a valuable tool in helping you identify your interests, enabling you to

- · Achieve satisfaction in your work
- · Identify career options consistent with your interests
- Choose appropriate education and training relevant to your interests
- Maintain balance between your work and leisure activities
- Understand aspects of your personality most closely associated with your interests
- · Determine your preferred learning environments
- Learn about your preferences for leadership, risk taking, and teamwork
- · Use interests in shaping your career direction
- · Decide on a focus for the future
- Direct your own career exploration at various stages in your life

HOW YOUR RESULTS ARE ORGANIZED

Section 1. General Occupational Themes

Describes your interests, work activities, potential skills, and personal values in six broad areas: Realistic (R), Investigative (I), Artistic (A), Social (S), Enterprising (E), and Conventional (C).

Section 2. Basic Interest Scales

Identifies specific interest areas within the six General Occupational Themes, indicating areas likely to be most motivating and rewarding for you.

Section 3. Occupational Scales

Compares your likes and dislikes with those of people who are satisfied working in various occupations, indicating your likely compatibility of interests.

Section 4. Personal Style Scales

Describes preferences related to work style, learning, leadership, risk taking, and teamwork, providing insight into work and education environments most likely to fit you best.

Section 5. Profile Summary

Provides a graphic snapshot of Profile results for immediate, easy reference.

Section 6. Response Summary

Summarizes your responses within each category of *Strong* items, providing data useful to your career professional.

Note to professional: Check the Response Summary in section 6 of the Profile before beginning your interpretation.

GENERAL OCCUPATIONAL THEMES

SECTION 1

The General Occupational Themes (GOTs) measure six broad interest patterns that can be used to describe your work personality. Most people's interests are reflected by two or three Themes, combined to form a cluster of interests. Work activities, potential skills, and values can also be classified into these six Themes. This provides a direct link between your interests and the career and education possibilities likely to be most meaningful to you.

Your *standard scores* are based on the average scores of a combined group of working adults. However, because research shows that men and women tend to respond differently in these areas, your *interest levels* (Very Little, Little, Moderate, High, Very High) were determined by comparing your scores against the average scores for your gender.

THEME DESCRIPTIONS

The charts above display your GOT results in descending order, from your highest to least level of interest. Referring to the Theme descriptions provided, determine how well your results fit for you. Do your highest Themes ring true? Look at your next highest level of interest and ask yourself the same question. You may wish to highlight the Theme descriptions above that seem to fit you best.

BASIC INTEREST SCALES

SECTION 2

The Basic Interest Scales represent specific interest areas that often point to work activities, projects, course work, and leisure activities that are personally motivating and rewarding. As with the General Occupational Themes, your interest levels (Very Little, Little, Moderate, High, Very High) were determined by comparing your scores against the average scores for your gender.

As you review your results in the charts below, note your top interest areas and your areas of least interest, and think about how they relate to your work, educational, and leisure activities. Take time to consider any top interest areas that are not currently part of your work or lifestyle and think about how you might be able to incorporate them into your plans.

OCCUPATIONAL SCALES

SECTION 3

This section highlights your Profile results on the Occupational Scales of the *Strong*. On the following pages you will find your scores for 130 occupations. The 10 occupations most closely aligned with your interests are listed in the summary chart below. Keep in mind that the occupations listed in your Profile results are just *some* of the many occupations linked to your interests that you might want to consider. They do not indicate those you "should" pursue. It is helpful to think of each occupation as a single example of a much larger group of occupational titles to consider.

Your score on an Occupational Scale shows how similar your interests are to those of people of your gender who have been working in, and are satisfied with, that occupation. The higher your score, the more likes and dislikes you share with those individuals. The Theme codes associated with each occupation indicate the GOTs most commonly found among people employed in that occupation. You can review your top occupations to see what Theme codes recur and then explore additional occupational titles not included on the *Strong* that have one or more of these Theme letters in common.

YOUR TOP TEN STRONG OCCUPATIONS

Occupations of Dissimilar Interest

Architect (ARI)

Athletic Trainer (RIS)

Physicist (IRA)

Veterinarian (IRA)

Medical Illustrator (AIR)

As you read through your Occupational Scales results on this and the following pages, note the names of those occupations for which you scored "Similar." Those are the occupations you might want to explore first. Also consider exploring occupations on which you scored in the midrange, since you have some likes and dislikes in common with people in those occupations. You might also consider occupations of least interest or for which you scored "Dissimilar"; however, keep in mind that you are likely to have little in common with people in these types of work and probably would contribute to such occupations in a unique way. Your career professional can guide you further in the career exploration process.

Click the name of any of the occupations in your top ten list above to visit the O*NET™ database (http://www.onetonline.org) and see a summary description of that occupation. Learn about occupations by visiting reputable Web sites such as O*NET. You can also find career information in a public library, in the career library of a college or university near you, or in a professional career center or state or local government job agency. Supplement your research by talking to people who are working in the occupations you are considering. These people can describe their day-to-day work and tell you what they like and dislike about the occupation.

PERSONAL STYLE SCALES

SECTION 4

The Personal Style Scales describe different ways of approaching people, learning, and leading, as well as your interest in taking risks and participating in teams. Personal Style Scales help you think about your preferences for factors that can be important in your career, enabling you to narrow your choices more effectively and examine your opportunities. Each scale includes descriptions at both ends of the continuum, and the score indicates your preference for one style versus the other.

Your scores on the Personal Style Scales were determined by comparing your responses to those of a combined group of working men and women.

YOUR PERSONAL STYLE SCALES PREFERENCES

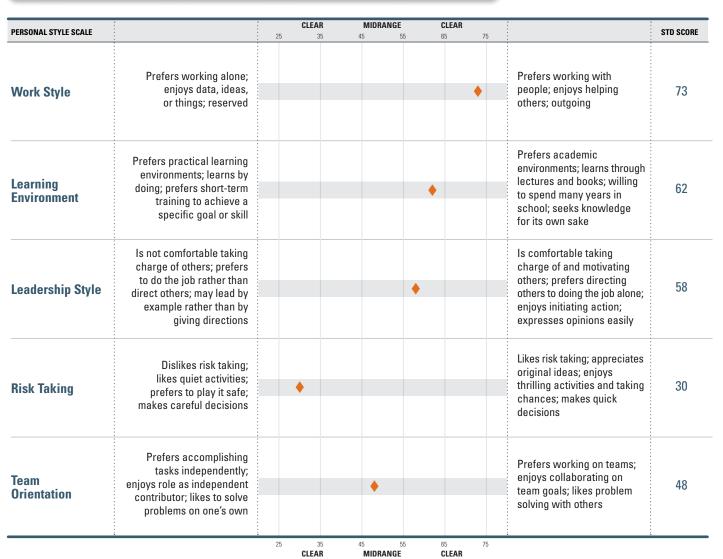

- 1. You likely prefer working with people.
- 2. You seem to prefer to learn through lectures and books.
- 3. You probably prefer to lead by taking charge.
- 4. You may dislike taking risks.
- 5. You probably enjoy both team roles and independent roles.

USING YOUR PERSONAL STYLE SCALES

Next, use your Personal Style Scales to identify the specific ways you prefer to approach whatever academic courses, majors, or jobs you undertake.

PERSONAL STYLE SCALE	PREFERENCES/ACTIVITIES					
Work Style	 Your score suggests a preference for working closely or frequently with people rather than working alone. You may prefer academic activities that focus on interpersonal interactions, such as study groups, group assignments, and helping others, rather than studying and researching on your own. 					
Learning Environment	 Your score suggests you enjoy the traditional student role and learning for the sake of learning. You may prefer classroom lectures, theoretical readings, and library research to practical hands-on training or work-study programs. 					
Leadership Style	 Your score suggests a preference for taking charge through meeting, persuading, and directing others. You may enjoy leading a student organization, coordinating campus events, or facilitating classroom discussions. 					
Risk Taking	 Your score suggests a preference for careful consideration before acting or deciding. You may prefer academic work that involves research, reading, and "how-to" workshops rather than assignments that require approaching new things spontaneously or quickly. 					
Team Orientation	 Your score suggests a preference for a mix of academic activities depending on the circumstances. You may enjoy a range of work, from independent assignments that require you to solve problems on your own to collaborative team projects. 					

See Applying Your Strong Results to College Majors at https://www.skillsone.com/Pdfs/Strong_College_Majors.pdf for guidance about researching and deciding on an academic major.

LEVELS OF SKILLS CONFIDENCE BY THEME

Your *Skills Confidence Inventory* results describe how you perceive your own capabilities in performing activities related to the same six broad areas represented by the General Occupational Themes. Keep in mind that these results may not reflect your actual abilities; the results reflect how you rate yourself. Your own rating may influence what kinds of activities you try or avoid and may determine what occupations or educational programs you consider as possibilities for exploration.

Your confidence in each of the six areas is shown below. Additionally, you will see a Skills Confidence Theme code, which summarizes the areas in which you feel most confident performing particular activities.

SKILLS CONFIDENCE THEME CODE: SEC
